

# TrippIn

An AI powered Trip planner

# Problem Statement

Creating trip itineraries is a time-consuming and cumbersome process for users, involving multiple platform searches, seeking friends' recommendations, and manually structuring daily plans

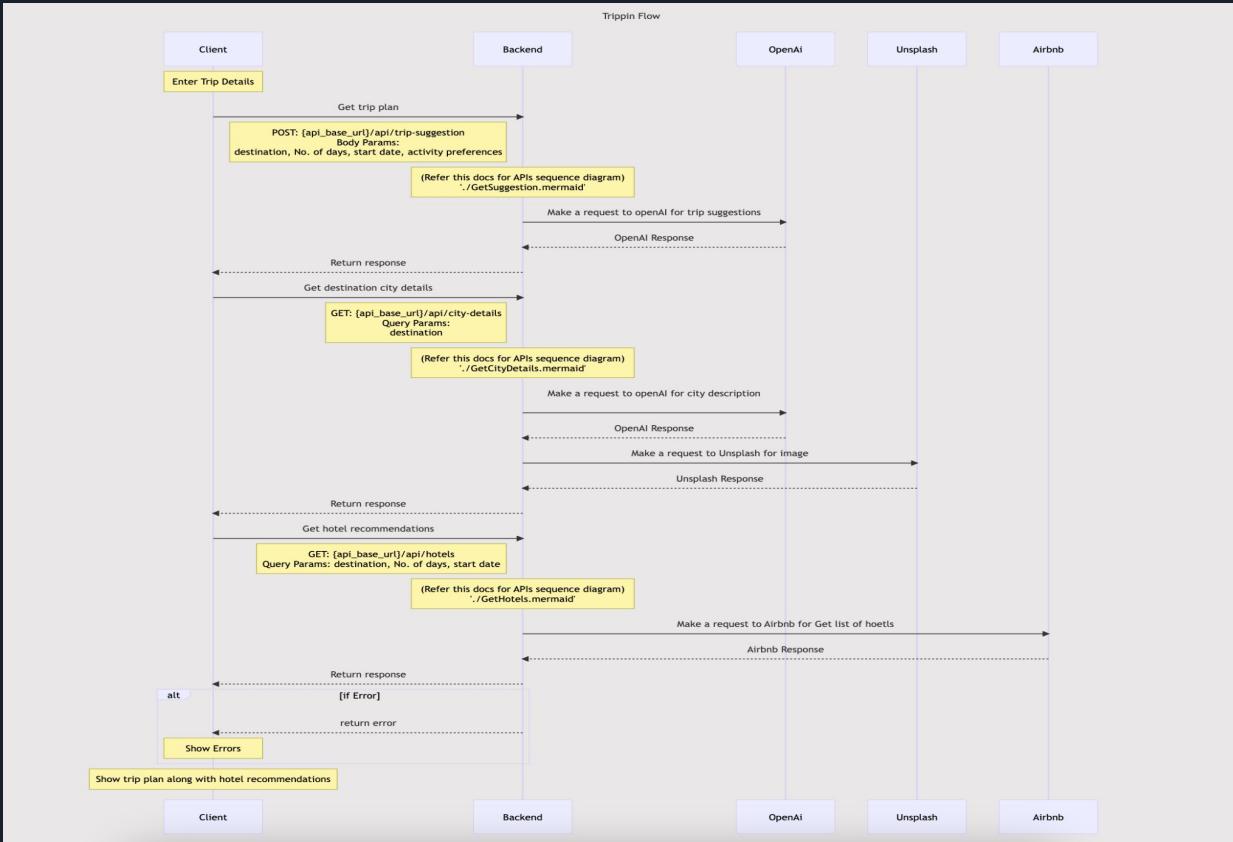

# What are we solving ?

Our AI solution aims to simplify and streamline trip planning for individuals, facilitating effortless and efficient itinerary creation that aligns with their interests and budget constraints.

# Sequence Diagram

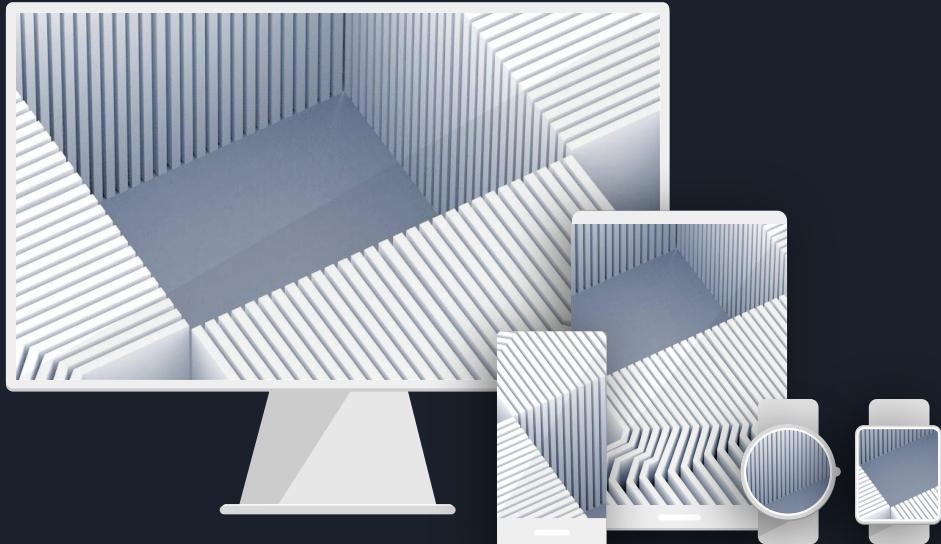

# Future Developments

- Integration with augmented reality
- Enhanced personalization

Any Questions ?

Thank you!
